APPLIED META-PHYSICS, THE SCIENCE OF BE-ING AND KNOWING

ESSAY: ENERGY Part 03

AS there is ONE energy, ALL the 'names' of Gods, are an aspect of this ONE energy. This should clear up the statement in Part 01 where I stated that all the names of 'gods' were called so, to lock out the insincere. To use another analogy: God is likened to the word 'weather', and then all the types of weather are aspects of the ONE Weather; Sunshine, rain, hail, sleet, snow, wind, storms, hurricanes, various cloud formations, etc. ALL are an aspect of the term 'weather', likewise ALL the 'gods', which people claim to serve, yet really use as an excuse to justify their own behaviour; originally were known to be aspects of the one God, even if that God was 'unknown' by the many. This is not clearly understood because of the deep hypnosis of the mind. People are hypnotised and the hypnotism has been reinforced for thousands of years, so the vast majority of people can only, at present, identify themselves with the subject of their hypnosis. Each in a deep sleep, attaching themselves to a mental attitude and calling it their 'God'.

Each 'God' is so called because the materialistic part of the mind is subject to it, or the force it represents. This concept is valid for everything. For example, people tend to 'worship' violence, because they do not understand its source and therefore do not know how to overcome it. Likewise with other 'gods', I mention violence, because through violating the Divine Law, the Hu-man family remains in the sleep of death.

ALL violence is a violation of the Divine Law, which is Love! ***"Thou shalt love the Lord thy God, with all thy heart, soul, mind and strength, and have no other Gods before ME"***... is the recognition that we do not breath, God breathes through us. This recognition is experienced through the ***inner Fyre of the Solar Plexus***, which when it is kindled, fills the whole person with God's Grace and power.

"Thou shalt love thy neighbour as thyself" is the recognition of this being True of your neighbour, who is an aspect of you. These two commands, which are the Higher mind commanding the lower, are the Key to tapping into the Higher mind and its powers.

Each of the other commands are likewise. In the parable, Moses represents the abstract (Higher) mind, forging ahead, liberated from the dark forces of the Race Thought Atmosphere, and becoming a leader, to lead the people, (our own thought people) to the Promised Land—which is, to take full control of this body, purge it of sickness, illness, division, fear, greed, lusts of the flesh and death. The body consciousness *resists*, and so an inner struggles has persisted, and been projected into the world, resulting in wars and all other forms of hu-man suffering.

ONLY those who have no self-control start wars, because they are slaves to the *Satanic forces and have been deluded into thinking death is inevitable*. This delusion justifies to them that ‘war’ is to them ‘acceptable’. As slaves to the dark consciousness, they project that into the world, having never realised their own inner beauty.

The reality is this whole Cosmos is alive, it is a living breathing intelligence, and everything we can see, everything the Cosmos is, is within every cell of our body, and this is the pure energy of Life, which animates each of us.

Today, Palm Sunday, sees Jesus' triumphant entrance into Jerusalem—the City of Peace. The multitude sing hymns and throw palm fronds in his path to pave the way for Him, as he rides an ass into the city.

The 'ass' is the lower (666) mind, which the Higher Mind has purged of all desires to do evil and, which Jesus (I AM) has mastered. The Palm fronds are **evergreens** and symbolize our *Immortal Nature (spiritual essence)*. *The crowds singing 'hosanna' is an analogy for the increased vibration of every cell of the body producing Grace, Bliss, Joy, and Ecstasy, within the body, as the centres of energy within every cell, radiate their LIGHT.*

Jerusalem, the 'City of Peace' is where Jesus is tried and crucified. It is the symbol of Head and Heart unified, which results in The Conqueror state of mind; conscious immortality. At the resurrection, the LIGHT of the Soul radiates brightly from the Heart, from the SOLAR PLEXUS radiating throughout the whole consciousness, revealing to that individual that ALL IS ONE. Before realising this experience of INNER LIGHT AND BEAUTY, one cannot know the real essence of beauty, be-

cause their references are all material references. Through the ReGeneration, when the Fyre of the Heart burns, one KNOWS and intimately experiences *real beauty*, in at-onement with God. To this effect, the disciples walking with Jesus after his resurrection said to one another:

“Did not our heart burn within us, while he talked with us by the way, and while he opened to us the Scriptures ?

-Luke 24:32

This experience is open to everyone when they walk in the company of Love, loving everyone and everything. To Live, to REALLY LIVE, we must LOVE LIFE more than any created thing. After all, those trapped in the materialistic lifestyle *are dead already, as ‘time’ as a ‘continuum’ does not exist.*

We call ‘time’ father, because ‘Father Time’s’ image comes from the ancient Roman god of time, Saturn. The ancient Greeks often referred to Saturn as Kronos or Chronos, which means “time.” Saturn was usually portrayed as an old man with a scythe since his functions related to farming, and his yearly festival was a

harvest celebration. At some stage this image of Father time was transferred to Father God, which is a grave error.

God is timeless; YOU are timeless, “I AM” is timeless, it is what we identify ourselves with, which etches their marks on mind, and produce the body. Everything which identifies with Time dies. In ancient Greek mythology, Cronus eats his own children. No, this is not cannibalism, it is a myth teaching that Cronus, who is Time, consumes all those who identify with him as their father!

WE are timeless, we are Spirit, we have, through falling into a lowered state of consciousness of materialistic and intellectualism, attached erroneous ideas about living, to life, and become subject to them, and so these ideas have ruled throughout history and made life a misery for the vast majority of the human family.

NOW, it is “the time of Salvation” says Paul *“(For he saith, I have heard thee in a time accepted, and in the day of salvation have I succoured thee: behold, now is the accepted time; behold, now is the day of salvation.)”*

The ReGeneration involves work. It involves repentance, which is a change of mind. Each person has the responsibility to change their own mind, by becoming the Gardener of their Being, dissolving and uprooting from the garden of mind, all ideas, which cause degeneration and sowing seeds of Love and Wisdom. This is a constant process and therefore 'now' is the 'time' of Salvation.

In his excellent book 'Atomic Suicide' Walter Russell poses and answers the following question:

"What is atomic energy?"

In answering this question let it be ever remembered that God is love, and that this universe is founded upon love. Every action and its reaction in Nature must be in balance with each other in order to carry out the purposeful intent of the Creator.

Love expressed by action, means balanced fulfilment of its own law of equal giving and regiving. That is the principle upon which this purposeful universe is founded. That which purposefully fulfils the law is GOOD. It will endure and be eternally repeated with more of that which man calls GOOD. Every action of man, likewise, which is founded upon love is a fulfilment of the law, and is GOOD—and will be eternally repeated.

Our action in answering this momentous question is founded upon love for the good of man. If it is purposeful it will bring GOOD into the world for endless repetition, which is Nature's way of work-

ing. If it is not balanced and orderly in Nature's way of working. If it is not balanced and orderly in Nature's way of normal growth of her Idea, then that moment of its departure from the GOOD will bring about its own dissolution. That is also Nature's way of dissolving that which is unrhythmic and purposeless in the fulfilling of her One Law.

His book it dedicated to discussing atomic energy, and radiation and how to avoid destroying the hu-man family by its misuse. For almost a hundred years, and also, right now, the world's 'leaders' have been caught up in wars striving to access resources, which will, if ever used, create more radiation than is healthy. Even today, the radiation we are subject to daily in busy cities is of sufficient strength to adversely affect many people's lives.

IN APPLIED META-PHYSICS we teach that everyone has the ability to go within, and connect with the Source of Life, and unite with it, and thereby sustain life and increase Wisdom and Love infinitely.

LOVE is the KEY here. Knowledge, when in the possession of those of the lower mind, is very dangerous, because it manifests through them magnifying the ideas in their minds of

fear, greed, selfishness, lusts of the flesh, lust for power and many more degenerate ideas, and they project them into the world causing suffering. Those doing so do not admit their errors, because that is the nature of the egregores and demons, which have hijacked their consciousness.

LOVE raises the whole, purges the whole, beautifies the whole, cares for the whole. Knowledge can be, and has been for centuries used selfishly to keep the human family segregated, using any number of destructive ideas based on materialistic thinking.

THE ESSENTIAL thing in this day, is to fully ***understand our Body is our Book of Life***, and is a LIVING RECORD of everything we think, say, do, eat drink and experience. The Commands teach us how to ReGenerate our thinking, by redirecting the ENERGY of God, through our minds, to increase our experience of Love, in a world in dire need of it.

All those who invest the time and effort to go within, and examine their thinking and their be-have-i-our, and invoke the Spirit of Wisdom for guidance receive it. Spirit/God/Love turns no one away. ALL are its children.

So, Today, Palm Sunday commemorates the historical act of Jesus (I AM) ascendance in consciousness of every person, and this is a Cosmic Parable, which affects all of us. What happened in Jerusalem, is constantly repeating itself in every person who turns within to the Spirit for guidance and does the necessary work to sift out of consciousness every harmful idea. As we dissolve degenerate ideas in mind, our mind is renewed and the energy, which was previously being allocated to materialistic and degenerate ideas, and keeping them alive in our consciousness is liberated, and clarifies the mind, being freed up and available to redirect into ideas of health, peace, prosperity and joy.

ALL we can see is ENERGY, we have fallen asleep and been indoctrinated to look on the surface of things, yet, this ‘material’ universe is ALL a sea of energy, and the events of our Lives are the fruit of ideas held in mind, and when we understand this and live according to peaceful and loving principles, and ideas of kindness, ALL of life becomes a living wonder of health, peace and joy.

“Fear not, little flock; for it is your Father's good pleasure to give you the kingdom.”

Applied Meta-Physics is the oldest Science in existence. It is the study of who we are and why we are here.

It is sometimes called 'The Science of Making the Ideal Real', because it identifies in concrete terms the abstract workings of the mind, and teaches the steps every eternal idea passes through in transition from the plane of the eternal spiritual world, to become manifest on the earth plane.

The sacred writings we have inherited are meta-physical in nature. This means they have been written through the inspiration of the Paraclete using words, which have varied meanings, interpreted accordingly, depending on which level of consciousness the reader has achieved.

The *art* of Applied Meta-Physics is to 'conceal, to reveal'. The Wisdom the writers concealed protects it from those who would destroy the writings, *and therefore destroy themselves*, until a time when the human family matured and awakened and realised its need.

The scriptures are like an offer to an addict deep in the throes of ad-diction, rejecting what they really need most, and lashing out, because they have lost control of their own minds. In the height of the loss of control the addict attacks those seeking to help them and would destroy them.

The parables, analogies, codes and koans in the Helios Biblia have preserved these writings, as the power of the Word concealed within them has worked in the hu-man consciousness to do exactly that.

Applied Meta-Physics is the Key opening the way to comprehending their riches and applying the Wisdom revealed in one's life and proving the truth thereof.

There is a simple fact of life:

We are all created equal, in that we are all the offspring of God, and we form our lives by the thoughts, words, deeds we think, speak and do. The equality is that the Divine Law is no respecter of personalities.

We are all held responsible for everything we do, and our body either regenerates or degenerates according to the motives of our hearts. If we seek to rule others, we are using the life we have been given to express ourselves contrary to the Divine Law, and this is slow and definite suicide.

If we submit to the will of another, this too is slow suicide and contrary to the Divine Law.

The LAW IS!

It is the Doorway to Everlasting Life.

PEACE.
