APPLIED META-PHYSICS, THE SCIENCE OF BE-ING AND KNOWING

ESSAY: RENEWAL

Each day we live, we are seeking more life. Therefore, each day we live, we should be striving to learn how to live. The more we live, the more we learn how to live.

Living should be for each of us, a continual process of RENEWAL. A process of renouncing the old thoughts that no longer serve us. What old connections do you need to sever, to allow the person to grow without being anchored to you, and vice versa? We sever connections so that after each person has grown and learned lessons and matured, UNITY is not only possible, it is inevitable!

Where there is no UNITY, there is still healing required. We are to be fully healed of materialistic thinking and the divisions it has caused. The reality is, that while the intellect is in charge, we are ignorant of the deeper understanding of Life required for joyful living.

Look around us, at the world. A world at war,

where the chronic disease of intellectualism has marched on, totally disregarding the emotional and physical suffering it has caused and continues to cause.

“Forgive them Father, for they know not what they do”.

Forgiveness is not a license to continue doing the things which cause pain and suffering. It is an outpouring of Light and Love, which transforms consciousness, liberating each person from the spell of the darkness of the Race Thought Atmosphere, which had enslaved them.

Forgiveness renews consciousness, teaches the person what they were doing wrong, and in the lesson, they receive more light and life.

One only needs to look back on history, to understand the depths of the darkness of ignorance and the division, pain and suffering it has caused the whole hu-man family.

It is ignorance of the inner Spiritual blueprint, which provides us with everything we are and need, which causes people to become seduced by materialistic thinking and become blind to the simple ‘sowing and reaping’ process of life.

The reality is that all is Spirit, and Spirit is an unlimited storehouse from where we can and do draw everything we need. There are seven parables/riddles in the Book of Matthew, relating to our dis-cover-y of the Kingdom of Spirit/God:

Parable of the Sower.

Parable of the Tares.

Parable of Drawing in the Net.

Parable of the Mustard Seed.

Parable of the Leaven.

Parable of the Hidden Treasure.

Each one builds up the image of a Spiritual storehouse, a Spiritual world, interpenetrating this one, which is the blueprint of this world, and of which we are each a representative—only when we have ‘faith’ - that is when we commune with Spirit, we are fed of Spirit and become ‘Faithful’. We are renewed.

“Now faith is the substance of things hoped for, the evidence of things not seen.”

Faith is a Spiritual substance we grasp with the heart and mind. It is, in the Spiritual world, an image or tangible lesson, we can grasp through heart and mind, and develop it

into a behaviour and events in this world, similar to a film camera, capturing light, and burning it onto the film, which then the photographer develops into a photograph in a dark room.

Our MIND is between the two worlds of Spirit and 'Material', the invisible and the visible being two poles of Spirit. We Live, move and have our being in Spirit and are constantly drawing from Spirit to Live.

We have a number of faculties of the mind, which are gifted to us, as reflections of the powers of the Cosmos, which we are each to call and train. This is taught in the allegory of Jesus (I AM) and the twelve disciples. The word 'disciple' means one who disciplines. Discipline is controlled expression of energy to achieve a desired and or envisaged result. A desire is formed from the materialistic side of existence, and envisaged desire is of the Spirit. Spirit's visions and dreams are real and, when one takes the time to comprehend them, they are sure guides teaching us how to live better quality lives.

ALL Spirituality is aimed at teaching us about

ourselves, our own nature... and how to live practical, happy lives. Above the entrance to the temple at Delphi were inscribed the words:

“Know Thyself”

About three hundred or so years later, Pythagoras said:

“Man know thyself; then thou shalt know the Universe and God.”

About five hundred years later, Jesus said:

“Truly, truly, I say to you, if anyone keeps My word he shall never see death.”

The evolution of consciousness, our awakening, continues every day. It must, because every person is a seed of God planted into the universal Spiritual substance, and each one must bring forth that which is within them, and then awaken and learn right from wrong and do that which is right in order to attain to everlasting Life!

Each of the parables, riddles, koans, allegories, is leading the mind from a ‘material’ representation, into a Spiritual reality. So, when we read and think about the parables, our mind is being educated into an understanding of the Language of the Spirit.

For example: when we meet new people, even though we speak 'English', each person has a different history, different experiences, different, frames of references, etc., so each person will use the same words of the same language with *different inferences* and this has caused, and still does cause confusion.

So, the important thing is to listen to one another and discuss the frames of reference and then clarify and renew one's understanding, so that each person understands the other's frame of reference, and what they mean when they speak.

When we renew our understanding, and realise that that the same words are used with different meanings, then, when we meet one another, for the first time, we can listen closely, discern the meaning intended, and design an alliance, which sets the foundation for peaceful interaction.

Such was the original purpose of greetings such as in ancient Greece, "The kiss of peace" the greeting: "Peace be with you"... "Shalom" or "Namaste" - in those days, there was a deeper understanding of the fact that WORDS exist in two worlds the world of Spirit, from

where we draw the power, and the material world, *for* which we form the Word.

They used the power of the Greeting to establish peace when they travelled. One could not say “peace” while understanding the power of Words and then rob the other fellow. The awareness of Self-response-ability was much higher among those travellers and Magi.

The Magi especially, they travelled from dwelling place to dwelling place taking their teaching, and the word Magi means ‘sage’ a wise one. Magi, is the root of the term ‘magician’ today and the ‘magician’s’ keyword is: Abracadabra, a transliteration of ‘avra-cadavra’ meaning: ***“As I speak, I create”***.

ALL Words are force and form. Each word is like the stroke of a pen of a line drawing, and the ‘drawing’ is our world of appearances, emerging from the form of our Words, supported by the Spiritual power, which is the essence of each WORD.

ANYTHING we desire to change, is first a change of MIND, which is a change in thinking, which requires a change in vocabulary,

which requires a change in TONE when spoken. Simply because, we are ALL participating in singing this ONE SONG called UNI-VERSE into manifestation. TONE confirms harmony.

Where there is a true understanding of the POWER OF WORDS, there you shall find peace.

WAR, SICKNESS, DISEASE AND DEATH, cannot exist in the mind of one who understands the Spiritual essence of WORDS. The reason is simple, wherever there is an understanding of the Spiritual essence and power of Words, that person has everything they need, by being connected to Spirit and having the intelligence to use the Power of Words to make manifest all the necessities of living.

Where this understanding exists, there is also an understanding of the Divine Law, which governs the whole Cosmos. To prove this to yourself, sound the depths of your own heart, seek out the riches that are there. Identify which of these high ideals, riches, talents, things, you need and then speak the words, which pave the way for their peaceful expression and manifestation.

“Say the Word and thy servant shall be healed”.

To “say the word” we need to be rooted in “I AM”. When you use the power of the Word to form the path in alignment with the Divine Law, you are drawing directly from the “Hidden Treasure” concealed in your own heart. Ignore this treasure and you are in poverty, and the accumulation of ALL the so called material riches and money in the world will never satisfy you, for you are possessed of the egregores and demons of the psychic realms and the value system of this materialistic world, which can never satisfy you.

Our ancestors knew this... they wrote it down. They lived it, they taught it, yet, at that time the dark forces of the Race Thought Atmosphere dominated the mainstream and so, the Spiritual Wisdom of Life has always been an undercurrent. Now Spiritual Wisdom is becoming mainstream, and manifesting as the process of renewal.

Renewal is the process of sorting through our garden of being, and identifying every thought and behaviour which is degenerative and using the power of the word to dissolve the thought-

forms, as we would weeds, so they can no more reproduce themselves in our lives.

“Be ye transformed by the renewing our your mind”.

As the Satanic consciousness has set up its throne and lives through the intellect, as a parasite, it is always seeking to deceive us into thinking that we can have the benefit of a better life without doing the necessary work to observe ourselves and change our minds. At times, it will be the ‘son of perdition’ ‘the adversary’ because it clings to its life source with all it is. Right here is where we each need to be persistent in the use of the Spoken Word in dissolving the degenerate thoughts, and seeding and cultivating the highest ideals, until they manifest in our lives:

Everything I need is provided before I need it
I rest in the assurance, that by declaration
The Living Law is made manifest
I open my mind to receive all the good God
has prepared for ME.
I accept it with thanks, and share it willingly
with all those around me.
So Be It.

“For what shall it profit a man, if he shall gain the whole world, and lose his own soul?”

Applied Meta-Physics is the oldest Science in existence. It is the study of who we are and why we are here.

It is sometimes called 'The Science of Making the Ideal Real', because it identifies in concrete terms the abstract workings of the mind, and teaches the steps every eternal idea passes through in transition from the plane of the eternal spiritual world, to become manifest on the earth plane.

The sacred writings we have inherited are metaphysical in nature. This means they have been written through the inspiration of the Paraclete using words, which have varied meanings, interpreted accordingly, depending on which level of consciousness the reader has achieved.

The *art* of Applied Meta-Physics is to 'conceal, to reveal'. The Wisdom the writers concealed protects it from those who would destroy the writings, *and therefore destroy themselves*, until a time when the human family matured and awakened and realised its need.

The scriptures are like an offer to an addict deep in the throes of ad-diction, rejecting what they really need most, and lashing out, because they have lost control of their own minds. In the height of the loss of control the addict attacks those seeking to help them and would destroy them.

The parables, analogies, codes and koans in the Helios Biblia have preserved these writings, as the power of the Word concealed within them has worked in the hu-man consciousness to do exactly that.

Applied Meta-Physics is the Key opening the way to comprehending their riches and applying the Wisdom revealed in one's life and proving the truth thereof.

There is a simple fact of life:

We are all created equal, in that we are all the offspring of God, and we form our lives by the thoughts, words, deeds we think, speak and do. The equality is that the Divine Law is no respecter of personalities.

We are all held responsible for everything we do, and our body either regenerates or degenerates according to the motives of our hearts. If we seek to rule others, we are using the life we have been given to express ourselves contrary to the Divine Law, and this is slow and definite suicide.

If we submit to the will of another, this too is slow suicide and contrary to the Divine Law.

The LAW IS!

It is the Doorway to Everlasting Life.

PEACE.
